An end to gender violence, especially towards working women, trans women, and women of color.

Reproductive justice, labor rights, and environmental justice for all

Full social provisioning

We fight for:

An anti-racist, anti-imperialist, all-inclusive feminism

begins a new international feminist movement

STRIKE!
HOW TO STRIKE?

- Organize or participate in local marches, demonstrations and walkouts.
- Organize or participate in picket lines and direct actions of civil disobedience.
- Organize a strike in your workplace. If you have a union, get your union on board; if you don’t, discuss with your coworkers what risks you are able to take and organize accordingly.
- Organize a boycott of companies using sexism in their advertisements or approach to workers.
- Organize a boycott of local misogynists.
- If you can, leave care and housework for the day and join your local demonstrations.
- If you can’t stop work on March 8th, wear or use the color red. For example, red clothes, or a red ribbon.
- Strike from heteronormative, cisnormative gender roles.
